

SAP GUI 8.00

SAP GUI 8.00, Patch 8 Installation Instructions

Use these steps to install SAP GUI 8.00.

TIPS

SAP GUI 8.00 installation may default the HRMS Users theme to Quartz. If the user prefers a different theme, please assist them by offering the [Changing your SAP Theme](#) user procedure found on the HRMS Support Hub in the Basics section.

Prior to installing SAP GUI 8.00, OFM recommends taking a screen shot of the user's HRMS Favorites in the event that they do not carry over after completing the upgrade. This will assist the user in recreating their list of [Favorites](#).

You must have desktop administrator privileges to complete this download.

Step 1

Navigate to HRMS Technical Requirements Site and download the SAPGUI800PRO.zip file.

Step 2

Save the SAPGUI800PRO.zip file to your local workstation.

Step 3

Extract and open the SAPGUI800PRO.zip file.

Step 4

Double Click on the **Deploy-Application.exe** file to execute download as administrator.

Step 5

Reboot the workstation after the installation is complete.
