SAP GUI 7.70

SAP GUI 7.70, Patch 3 Installation Instructions

Use these steps to install SAP GUI 7.70.

TIPS

SAP GUI 7.70 installation may default the HRMS Users theme to Quartz. If the user prefers a different theme, please assist them by offering the Changing your SAP Theme user procedure found on the HRMS Support Hub in the Basics section.

Prior to installing SAP GUI 7.70, OFM recommends taking a screen shot of the user's HRMS Favorites in the event that they do not carry over after completing the upgrade. This will assist the user in recreating their list of Favorites.

You must have desktop administrator privileges to complete this download.

Step 1

Navigate to HRMS Technical Requirements Site and download the SAPGUI770.zip file.

Step 2

Save the SAPGUI770.zip file to your local workstation.

Step 3

Extract and open the SAPGUI770 zip file.

Step 4

Double Click on the **Deploy-Application.exe** file to execute download as administrator.

Step 5

Reboot the workstation after the installation is complete.
